--------------	----------	------------------------------	--	-----------	----------	---------------	--

The above information is based on manufacturers' criteria and experience from extensive use of the equipment.

Any other action required:

This risk assessment is specific to the equipment and covers the set-up, use and pack down. The risks detailed above generally do not change between sites however as our team arrive on site they will conduct a dynamic risk assessment and avoid any risks they may find, if the risks cannot be avoided then the risk will be assessed and a decision on the location of set up will be made.

This item can only be operated by Live 9 Events staff and all staff will follow the training they have been given. If required can refer to the "Staff Information Pack & Safety Guide".
